FRONT-END DEVELOPER

Front-End Developer with 5+ years building production web and mobile applications serving 1M+ users. Specialized in React ecosystem (React, React Native, Next.js) with proven track record of reducing load times, rebuilding legacy systems, and establishing scalable component architectures.

WORK EXPERIENCE

Kian Financial Group - Senior Front-end Developer   **February, 2023 – Present**

- Rebuilt Kian Digital PWA using React and Next.js, reducing initial load time by 40% and improving Core Web Vitals scores from 45 to 78, ensuring smooth migration for 100K+ active users
- Drove technical decisions to established quality standards across the development lifecycle, improving code reliability and reducing post-launch bugs by 30%
- Rewrote Android app in React Native (1M+ downloads), cutting development cycle time by 50% and reducing crash rate from 3.2% to 0.9%
- Architected multi-tenant web application with role-based access control (RBAC) supporting 5+ organizations, enabling secure data isolation and custom product configurations for each client
- Optimized rendering performance for data-heavy dashboards, reducing render time by 60% through virtual DOM optimization, code splitting and efficient state management
- Developed company-wide UI kit adopted across 4 applications, reducing component development time by 50%
- Built comprehensive admin panel for managing Kian Digital's mobile app operations, enabling real-time content updates and analytics dashboard for 200K+ active users

Maha - Front-end Developer   **February, 2022 - February, 2023**

- Established comprehensive testing infrastructure using React Testing Library and Cypress, achieving 65% code coverage and reducing production bugs by 50%
- Developed custom interactive map components with real-time data visualization, improving user engagement
- Implemented multi-language support (3+ languages) with RTL compatibility, expanding market reach to international users
- Introduced Storybook documentation, reducing onboarding time for new developers by 40%

Naghsheh Market - Front-end Developer   **April, 2021 - February, 2022**

- Developed a high-performance, server-rendered e-commerce platform that delivered seamless shopping experiences for customers.
- Implemented fully responsive layouts achieving 100% design-to-code accuracy, increasing mobile conversion by 28% and mobile traffic by 40%
- Built intuitive, error-proof forms to improve user interaction and data collection quality.

SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS
- **Frameworks:** React.js, Next.js, React Native
- **Libraries:** Material UI, Axios, React Query, Redux, Redux Toolkit, Zustand, Tailwind CSS
- **Tools, Testing:** Git, Webpack, NPM, Yarn, React Testing Library, Cypress, Storybook

EDUCATION

Bachelor of Computer Software Engineering   Mazandaran Institute Of Technology
